PROFILE

I am an enthusiastic, responsible, and detail-oriented Frontend Software Engineer with a passion for tackling uncommon and extraordinary challenges that demand my skills and expertise. Eager to contribute to innovative projects, I am seeking a frontend developer position within a dynamic company. I aspire to join a team of experienced specialists, where I can collaborate on interesting and impactful projects.

EDUCATION

National Technical University "Kharkiv Polytechnic Institute", Kharkiv, 2013 - 2018

Automation and computer-integrated technologies

Genesis Front-end School
